HOYA
FOR THE VISIONARIES

Tact™ Pro BKS®

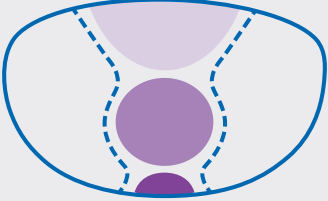

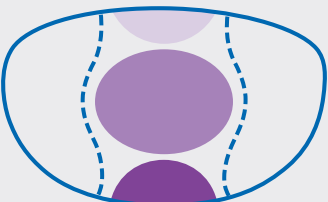

Indoor Clarity Redefined: Where Precision Meets Comfort.

Tact™ Pro BKS® is designed for computer users and patients who perform visually-intense work or hobbies. The lenses may help relieve symptoms related to Digital Eye Strain (DES).

Symptoms of Digital Eye Strain (DES):

- Headaches
- Loss of Focus
- Blurred Vision
- Neck & Shoulder Pain

The Tact™ Pro BKS® lens design provides a choice of 3 fitting options for optimizing vision:

Tact™ Pro BKS® 20	<p>Select Tact™ Pro BKS® 20 for Distance Vision Emphasis</p> <p>Tact™ Pro BKS® 20 provides the patient with 20% of the near Rx at the fitting point and is recommended for patients using glasses primarily at a short distance. This fitting position emphasizes distance, then intermediate and near zone.</p>	
Tact™ Pro BKS® 40	<p>Select Tact™ Pro BKS® 40 for Intermediate Vision Emphasis</p> <p>Tact™ Pro BKS® 40 provides the patient with 40% of the near Rx at the fitting point and is recommended for patients using glasses primarily at the desktop computer. This fitting position emphasizes intermediate, then near zone.</p>	
Tact™ Pro BKS® 60	<p>Select Tact™ Pro BKS® 60 for Near Vision Emphasis</p> <p>Tact™ Pro BKS® 60 provides the patient with 60% of the near Rx at the fitting point and is recommended for patients using glasses primarily for reading and laptop computers. This fitting position emphasizes near, then intermediate zone.</p>	

Viewing Areas:  Distance  Intermediate  Near
